

## 350 Couples Will Make Merry At Hotel Bradford Starting At 9:30 Tonight

### No Tickets Will Be Sold At Door Says Dance Committee

The Soph-Frosh Prom which will be attended by many of the members of the classes of '45 and '46 tonight, promises to be one of the standout events of the Institute social year. Elaborate plans have been made by the committee to provide those in attendance with a very enjoyable time tonight in the ballroom which is on the first floor of the Bradford Hotel in downtown Boston.

Among the added entertainments will be Harrison the Magician, who will also serve as master of ceremonies for the remainder of the entertainment. A door prize will be awarded at intermission also, but the nature of the prize has not been revealed by members of the committee, who only say that it will be "doggie".

Music will be supplied by one of the better known of the colored orchestras now performing. Sabby Lewis—who recently was so popularly received by many Tech students at the All-Tech Formal.

According to an announcement by the committee last night, ticket sales, which are being conducted in the lobby of Building 10, will be stopped tomorrow at 4:00 P.M., and no tickets will be sold at the dance itself. Festivities will start at 9:30 and stop (officially) at 2:00 A.M.

## T.E.N. Announces New Wartime Plans

### Snyder, Boyce, Smith To Head Executive Comm.

A new wartime constitution for the Tech Engineering News was adopted at the Institute Committee meeting held yesterday afternoon. The new constitution, which will make the further operation of the magazine possible, calls for an executive committee made up of all the members of the staff of the present volume, and may be augmented at any time by more men whom these men wish to elect.

Clyde C. Snyder, Jr., '45 was named the chairman of the executive committee, while Carroll W. Boyce, '45, and Roger D. Smith, '45, were named as the co-vice-chairmen of the committee, as called for in the new constitution. It is the present plan of the magazine to keep going through the summer, and to attempt to get freshman staff members in order to publish an issue next fall.

The next issue of the Tech Engineering News, which will be the last for summer, will be on sale during the first few days of examinations.

## Debaters Beat Wellesley On Federal Union Topic

The M.I.T. Debating Society defeated a team from Wellesley last Monday in a debate on the Federal Union topic. John W. Colton, '45, James G. Ulmer, Jr., '45, and Lee Hanower, '45, argued the negative side of the question for the Institute. The debate was the main feature of the Young People's Seminar Meeting at the Old South Church.

On May 18 the Institute will hold a round table discussion with Pembroke College students, to be held at Technology. The topic is to be "India, Now and After the War."

## Thiede Chairman, As IFC Elects Its New Officers

Robert V. Thiede, '44, was elected chairman of the Interfraternity Conference at the regular monthly meeting held last night at the Smith House. H. Bruce Fabens, '45, David G. Kobick, '45, and Robert A. Metzger, '44, were elected Secretary, Treasurer, and Dance Chairman respectively.

In addition to the elections, the business of the meeting consisted of a discussion of the plans of the fraternities and the I.F.C. for the coming rush week. Plans are under way to send letters to the freshmen as was done last year, and also to find a way of supplying the fraternity houses with enough food to feed the freshmen during rush week. Thiede has been in charge of making these plans during the past few months.

Finally the financial report of the I.F.C. dance was given by retiring Dance Chairman Lewis Tyree, Jr., '44, and a financial report of the I.F.C. since January was given by the ex-treasurer, Fabens. The report of the committee, headed by Arthur F. Peterson, Jr., '44, which has been investigating the cost of living in fraternities was given, and Peterson explained that because of the nature of the report, it would be given to the chairman of the I.F.C., and that the material in it would be restricted to officers of the various houses on the campus.

The next meeting of the I.F.C. is scheduled to be held early in July.

## Commuters Elect Four New Officers

### Dolan, Amrhein, Little And Ericson Chosen

Thomas F. Dolan, III, '44, was elected President of the 5:15 Club this past week. Named to assist Dolan in the managing of commuters' affairs were F. Joseph Amrhein, Jr., '45, who is the new vice-president, Carl G. Erikson, '45, who was elected secretary, and Willard S. Little, Jr., '44, now treasurer of the organization.

These elections were approved by the Institute Committee at its meeting last night. Along with the approval of the elections, the Institute Committee heard the plans of the 5:15 Club for the coming semester. These are, to continue the activities of the organization as usual, providing the facilities of Walker Memorial remain available for the commuters. The officers just elected will begin their term of office with the advent of the summer semester.

Selective Service Regulations require that all registrants notify their boards promptly of any change of address. Inquiries from a number of boards indicate that many students who formerly lived in the dormitories have not yet sent the boards their new addresses. Failure to comply with this fundamental requirement of the Selective Service Act may result in reclassification. Prompt action is advised.

## Major Activities Plan To Continue Despite Hardships

### Student Organizations Reveal Future Plans As Inst. Comm. Meets

Eight of the major Institute activities announced last night that they would continue as long as possible. These statements were made at the regular fortnightly meeting of the Institute Committee, held yesterday in Litchfield Lounge, when Class A activities were required to submit written reports on their plans for the future.

The Debating Society said that although very few members would be still here next term, they hoped to continue activities, adding that it might be necessary to give control of the Society to the English Department. The Musical Clubs said that the Classical Orchestra would be dropped, but that the Tectonians and the Glee Club will continue.

During the course of the meeting, the Institute committee approved the Tech Engineering News' Wartime Constitution, and also approved the elections of the 5:15 Club, M.I.T.A.A., and T.E.N. officers.

## Special Technique Price Will Be Raised Tomorrow

The special \$4.50 offer for the 1944 Technique will expire tonight, and the purchase price will be raised to \$5.00, for both cash sales and pledge redemptions. Pledges will still be \$2.00, but the redemption price will be raised from \$2.50 to \$3.00.

The yearbook is scheduled to appear in July, when the price will again be raised, this time to \$5.50. It will be mailed, postpaid, to those purchasers who will have left the Institute.

## Lamb' Chi Frog Derby Upholds Calaveras County Tradition

Did you know that tomorrow is the anniversary of the Jumping Frog Derby of Calaveras County? Probably few readers look forward to this date with rabid enthusiasm, but none of those who have read it will forget Mark Twain's famous account, as told by the venerable old windbag, Simon Wheeler, of the torrid frustration which greeted one enterprising vagabond, Jim Smiley, upon making the brilliant observation that his pet frog had been hijacked by an adversary in a matter involving high stakes and all colors of personal pride.

His much advertised pet had set still, ignoring the rehearsed command, heaving like a Frenchman,

utterly refusing to transport a pound of quail shot over the usual route. Quoth Wheeler, "Ol' Dan'l 'pears to look mighty baggy, somehow, so Jim, he ketched Dan'l by the nape of the neck, and out belched a double handful of shot." To Smiley, this incident struck deep into the very roots of his being.

This weekend the frogs are jumping again. Only this time it'll be on the Tech campus. One of the final dances of the year will commemorate the near century-old episode by holding a frog derby involving any manner of bets, rationing points included. The Frog Derby, motif for the Lamb Chi's

(Continued on Page 2)

## Priorities For Materials To Build New Cafeteria Received From W.P.B.

### Official Notice

The Approved List of Student Tutors in first and second-year subjects is now being compiled for the next academic year. Application forms should be filled out at the Office of the Dean of Students, Room 3-108, within the next two weeks.

## Alternate A.A. Officers Chosen

### Heuchling, Keating Hahn Will Get Posts

Frederick G. Heuchling, Jr., '45, was elected alternate president of the M.I.T. Athletic Association at a meeting held at 5:00 P.M., Tuesday, May 4, in Litchfield Lounge. Kenneth L. Keating, '45, was elected alternate vice-president, and Raymond E. Hahn, '43, was elected secretary.

The meeting was held to determine the future of the Association, and it was decided that it would continue "until the last student leaves the Institute." The alternate officers who were elected will take over their respective offices if and when the advanced R.O.T.C. is called to active duty. Until this occurs, the present officers will retain their posts, and the alternate officers will continue in their present positions. Heuchling is now publicity manager, and Keating is assistant Field Day manager and assistant track manager. Hahn is track manager.

## Alpha Chi Sigma Names 9 Nominees

Nine students at the Institute were nominated for membership in Alpha Chi Sigma, honorary chemical and chemical engineering fraternity, at a meeting held on May 5. These nominees are to be formally initiated into the fraternity next Sunday at 2:00 P.M.

The nine men are: Americo F. Almeida, '44, George P. Curran, '45, Ben Y. Mason, '44, Horace T. Robson, '45, Theodore B. Roessel, '44, Robert P. Slusser, '45, Stanley C. Smock, '45 and Page S. Ufford, Jr., '44.

The Alpha Chi Sigma fraternity has arranged to keep active during the summer, and, if possible, will remain a going organization for the duration. To this end a set of alternate officers was recently elected to fill the places of those men who are to be called into the armed services at the end of the present semester.

### Official Notice

All library books must be returned to the library from which they were taken on or before May 25, 1943, subject to a fine of \$1.00.

This applies to all books and periodicals whether taken from the Central Library or a branch library, including Walker Memorial Library.

Failure to comply with this regulation will result in the cost of all books not returned being charged against the borrower's account at the Bursar's Office.

## Work Begun Wed.; To Be Completed In About 6 Weeks

Priorities to obtain materials for the construction of the new cafeteria were received by the Institute Wednesday, it was announced by Mr. D. L. Rhind, Bursar. The plans for the new dining hall were announced at the beginning of last month, and at that time the blueprints were submitted to the War Production Board for approval.

The contractor has already begun to excavate for the foundation, and under the present schedule the building is expected to be completed in six weeks. This does not mean that meals will be served in the building at that time. Equipment for cooking and serving is to be installed immediately after the structure's completion.

### Near Pool

The building is to be located between the Barbour Field House

(Continued on Page 2)

## A.P.O. Blood Drive Ends Next Friday

### New Summer Drive Will Begin During July

The blood drive which Alpha Phi Omega, honorary scouting fraternity, has been sponsoring for the past two terms will end Friday, May 21, at 5:00 P.M. The drive for the summer term is to begin during the early part of July.

About 25 percent of the persons connected with the Institute, including students, employees, and faculty members, have donated at least one pint of blood for the American Red Cross Blood Drive. Of these, almost half have signed up and contributed their blood through the efforts of the A.P.O. Drive.

The desk in the Main Lobby of Building 10, with the "Give Blood For Victory" sign, will remain available for signing up until May 21. This is a serve yourself desk, and all necessary blanks and forms are laid out on it. It is only necessary to follow the instructions found at the desk. Persons desiring to do so may make an appointment to contribute their pint of blood by calling KIRKland 9060.

## T.C.A. To Check Rooming Status

The T.C.A. Room Registry is currently sending letters to 450 Institute students now living in rooming houses in an endeavor to get information concerning these rooms for possible renting by other students in the future, should the present occupants be moving at the end of the term. John C. Moore, '45, and Peter P. Agoston, '46, co-directors of the Room Registry, are in charge of the questionnaire.

The step is being taken to help insure freshmen and students moving from the Graduate House as nice a place as possible in which to live. The present room occupant is asked to fill out an enclosed postcard and return it with the requested information. The address, size of the room, cost per week, number using the bathroom, study facilities, and date of release are asked. Also the student is requested to give his impression of the room and landlady.

## WHAT TO DO?

Last night at the meeting of the Institute Committee, eight major activities submitted written reports on the state of their organizations and the prospects for the future. In most cases the activities wisely planned to restrict projected enterprises in order that their war-time capacities be not overtaxed. The Musical Clubs, for example, have decided to abolish the Classical Orchestra lest the orchestra become degenerate while still being recognized.

The first hint of a possible recourse open to other hard pressed groups was presented by the Debating Society, qualified as it was by the hope that such action may remain unnecessary, for the Society announced that its control may be handed over to the English Department. Other activities may find this a useful expedient in more trying (and what might *they* be?) times. At Princeton, Yale, and many other colleges throughout the country, plans for ceasing publication of undergraduate newspapers by the students have started, or are in the offing. In such cases the school authorities have made arrangements to publish small bulletins at weekly intervals.

Here at the Institute, The Tech plans to continue publication on its weekly schedule throughout the summer and to continue thereafter although the staff will be seriously depleted by the press of war-time conditions. Technique for '44 will appear July 15 and beyond that date the future remains indefinite; Voo Doo plans to suspend publication for the summer; while T.E.N. expects an uncertain future.

The situation with regard to the incoming freshmen was well lampooned by the recent Gridiron initiates who presented a skit picturing a poor frosh bewildered by the rushing activity personnel managers. Someone once said, "Out of the mouths of babes——." S'truth.

## Flat-foot Rube To Be Favorite In Big Frog Race

(Continued from Page 1)

fare-thee-well fling at Institute life, will be held during intermission tomorrow night at the fraternity house. Flat-foot Rube, descendant of the original Daniel Webster of Calaveras County, is expected to be the favorite, running at odds of twenty-to-one. The dark frog candidate, whose location is still secret, is Web Toed Sue, runner up to the long shot. This is not a prize-giving affair; it will be strictly professional gambling.

The use of adrenalin, any other drug, or quail shot has been prohibited. Private entries are permitted, but must be paraded before the spectators before any equitable handicap may be placed upon them. The use of bull frogs as prompters is considered unethical.

Coming from a long line of developments in the Indoor Sporting World, frog racing offers greater risks and equally greater excitement than either of its notable predecessors, the Turtle Derby or the Beetle Derby. Turtles are hardly aware of the nature of the matter, while beetles notoriously do not have any sporting blood. Frogs, however, possess the true competitive instinct. The fact that they can be trained is a matter which seems to be disturbing the entrepreneur of the Lambda Chi Frog Derby considerably.

## To Use Part Of Field House For Kitchen Of Cafeteria

(Continued from Page 1)

and the Alumni Pool. Half of the field house itself will be converted into a kitchen, while the visiting team locker rooms are to become washrooms for men and women employees. The building will be constructed of concrete, and is to be only one story high. There are to be no windows, light coming from over-head transoms and skylights.

The new dining hall will be under the management of Paul Herbert, owner of the Howard Johnson's on Memorial Drive. All equipment, with the exception of the bakery, will be moved to the cafeteria from Johnson's. This will make it unnecessary for the Institute to get priorities for such material. Service is to be conducted in a military manner, patrons receiving their food in mess trays similar to those used by the armed forces. The Paul Herbert Industrial Catering Company, which also runs the 1st Service Command Officer's Cafeteria, will supply its own staff. All equipment will go back to Howard Johnson's after the war.

## Staggered Hours

The dining room will only accommodate 448 persons at one time as compared to Morss Hall which could take care of 675 persons at the same time. This will necessitate the staggering of lunch hours. Because of the low overhead, the meals are expected to be reasonably priced.

\*The plans were drawn up by architects McCreery and Thereault.

## Entering Freshmen To Be 800 Strong Despite World War

In spite of the draft situation, the Class of 1947 will be one of the largest classes in the history of the Institute. The applications of over 800 students have already been accepted. Although no statistics have been drawn up as yet, it is believed that the percentage of coed students will not be appreciably higher than in the Class of 1946.

The average age of the Class of 1947 is two and one-half months younger than that of the Class of 1946; however, accounting for the fact that they will enter the Institute approximately three months earlier than the Class of 1946 did, the average age of the two classes at their respective dates of admission is nearly equal. Nevertheless, approximately three-fourths of the members of the Class of '47 will be under 18 years of age when they enter the Institute.

## Residence Problem

The most serious problem confronting the new freshmen will be the housing situation. Since there is no available space in the dormitories, those who do not live in fraternity houses will be forced to live in apartments or rooming houses. The T.C.A. Room Registry has recently been brought up to date and enlarged to take care of the expected increase in demand.

Three hundred schools are represented in the new class, approximately one-third of the class coming from private schools and the remaining two-thirds from public schools.

The list of freshmen, thus far accepted, was published by the T.C.A. several weeks ago.

## O-At-Ka Campers Meet Tonight To Discuss Plans

There will be a meeting tonight at the T.C.A. office of all those students planning to go to the Student Conference at Camp O-At-Ka. The meeting is scheduled to start at 5:00 P.M. and will last about half an hour.

Plans for what the Technology delegation will do at the conference are to be discussed. These will cover study groups and the stunt night. Transportation plans will also be settled.

To date thirteen persons from the Institute have signed up to go and more are expected to join later. Anyone interested may obtain information in the T.C.A. office. Posters giving some details of the conference have been put up around the school.

## Advisors Named For 300 More Incoming Students

Letters to the Freshman Advisors of the second group of incoming students will be sent out tomorrow, it was announced by Horace T. Robson, '45, last night. Robson is the Director of Freshman Advisors for the T.C.A. which annually sponsors this program.

The group numbers 300 students, and 100 upperclassmen have been assigned to aid them. Each advisee is informed of the name of his advisor, who in turn is sent a copy of that letter and other information and material needed by him.

Previously 519 entering freshmen had had advisors appointed for them, bringing the total number advised to 819.

# Meny, Wareham Will Compete In I.C.4-A Games

### Beaver Captain To Enter 220 And 440 Yard Events At N. Y.

Although originally planning to send three men to the I.C.4-A games in New York City Oscar Hedlund, track mentor, announced last night that only two men will compete. Bud Bryant, stellar Beaver half-miler, will be unable to make the trip because of a bad throat. Capt. Bob Meny and Dick Wareham, hammer throw specialist will compete in the games, however.

Wareham's chief contender will be Dodge of Maine who triumphed in the recent New England Championships and has thrown the hammer a distance of 153' 2" this season. Another who will be competing against Dick is Fisher of Harvard who has reached 152'.

Totalling 11 1/2 points in a strong field the Beaver trackmen gained a tie for seventh place with Tufts in the annual New England Intercollegiate Track and Field Championships held on Alumni Field at Boston College last Saturday. Rhode Island State, with its usual well-balanced aggregation took first honors with 34 points while the Wildcats from New Hampshire clinched the runner-up spot with 26 1/2 tallies. Maine, Boston College, Springfield and Holy Cross followed in that order in the 59th running of the annual event.

Capt. Bob Meny led the Tech scoring, getting second place in both the 220 yard dash and the 440 yard run. Meny led the field in the 440 but was edged out in a photo finish by Jim Cole of the Rams. Art Bryant of the Beaver squad came through for a fourth place in the 880 yard run while Jim Artley and Dick Wareham got third places in the Discus and Hammer throw events. Only other scorer was Bill Pasfield, who figured in an eight way tie for fourth in the broad jump.

Outstanding individual star of the day was Richmond Morcom of New Hampshire, who took firsts in the Pole Vault, Broad Jump, and High Jump as expected.

Several interesting things occurred at the meet which did not show up in the final tabulations. In getting fifth in the mile and two mile events Warren Spear and Harold Knapp ran the fastest times of their careers, 4:34.4 and 10:04.0 respectively. Bud Bryant did the same as he got fourth in the 880 yard run with the time of 157.4. Meny's time of 50.8 in the quarter was also a new high for him, but he got only second in the event. Jim Artley set a new Institute discus record when he took third.

Wednesday the frosh cindermen won another meet when they

(Continued on Page 4)

## Track Banquet Will Be On Mon. At Smith House

The Smith House on Memorial Drive will be the scene of the annual track banquet to be held next Monday for all the members of the varsity and freshman track squads. As usual it will consist of a dinner and the awards which are made annually for participation in the spring track schedule.

All members of both track teams and any who participated in the track season are urged to attend this dinner since it will be a farewell for many members of the Beaver team.

## Tech Sailors Are National Champs

### Morss Trophy Returns After Three Attempts

Sam Parkinson and Hal Boericke, ace skippers of the Nautical Association, brought home the Henry A. Morss trophy and the Intercollegiate Yacht Racing Association National championships last weekend, when they defeated their arch rivals from up the river and a field of seven other schools in one of the closest competitions in years. Both Boericke and Parkinson took five first places with the former copping high scoring honors with 81 points.

The final standings of the schools were: Tech, 152; Harvard, 145; Brown, 123; Coast Guard, 110; Northeastern, 102; Williams, 99; Stevens Institute, 69; and Haverford, 62.

A northwest squall bowled down over the river on the first day, capsizing two crews, but an easterly in the afternoon provided good racing. On Sunday light shifting breezes wandered on the basin.

At the annual meeting, Commodore John R. Taft of the Nautical Association was elected President to succeed Dave Noyes of Harvard as head of the I.C.Y.R.A. Boericke was elected as one of the members at large of the regatta committee for the coming season.

## Crew Gets Second As Navy Triumphs In Annapolis Test

### Princeton, Penn And Columbia Trail Tech In Race On Severn

Rowing in extremely rough waters, the Tech oarsmen last Saturday took a close second in their final crew race of the season, when they trailed Navy, considered by many to be the best crew in the east, by a length. Princeton took third followed by Pennsylvania and Columbia in that order, in the race which was held on the Severn River at Annapolis, Md. The trophy was the Childs Cup for which only Princeton, Pennsylvania and Columbia were eligible.

After getting off to a poor start the Beavers had added trouble when one of their tiller lines broke making steering impossible. Coming up fast they were able to come within a length of Navy before the course ran out. The waves were so high that several times the outriggers which supported the oars went under. Navy made a clean sweep of the day as their other boats won every race, the plebes defeating the Beaver frosh by a length, with the Penn first year men following at 8 lengths.

The times for the mile and three quarters course were: Navy 9:41.3; Tech, 9:47.5; Princeton, 9:58.3; Pennsylvania, 9:58.5; Columbia, 10:13.7.

On the same day, on the Charles River over the Henley distance, the Beaver 150's dropped a race to Harvard by three lengths to wind up their season.

## S.A.E. Wins Beaver Key Cinder Meet On Briggs

Sigma Alpha Epsilon won out by a wide margin in the annual Beaver Key track meet held last Sunday on Briggs Field. The fight for second was practically a battle between Jack Hunn of D.U. and Ray Spencer of the Phi Gams. The final tabulations were: S.A.E. 41, Phi Gamma Delta 27, Delta Upsilon 26 1/2, D.K.E. 13, Phi Delta Theta 11.

### TUESDAY, MAY 18

6:00 P.M. Crew Banquet—Smith House.

### Track

(Continued from Page 3)

topped Governor Dummer Academy by the score of 82-25 on Briggs Field. Charlie Goldie, Jim Artley and Robert Donohue led the Beaver scoring throughout the meet. Goldie won the 220 yard dash and the 380 yard run, while Artley won the shot put and discus and took second in the javelin throw. Donohue took first in both hurdle events as well as winning the broad jump and getting a tie for second in the high jump. The Beaver yearlings made a sweep of the broad jump getting all three places.

### Linksmen Top B.U. And Brown Teams

With but a single defeat to mar their record, the Tech linksmen racked up to more wins last week, one return match with Boston University whom they took 6-3 at the Oakley Country Club, last Saturday and a second with Brown on the Agawam Country Club course at Providence last Monday, which they won by the same score. Their only defeat was at the hands of a strong sextet of Crimson golfers on the Oakley Country Club links on May 5, the final score of which was, Harvard 6, Tech 3.

### Crew Awards Will Be Made Monday

At 6:00 P.M. on Tuesday night the members of the Technology crews will get together for their annual banquet at which time the awards will be made to those who have earned them. The dinner will be held at the Smith House on Memorial Drive and anyone who is interested in crew is invited to attend. The price of the dinner will be approximately \$1.25.

Coaches Bob Moch and Pat Manning as well as several members of the Advisory Council on Athletics will be on hand to speak to those in attendance and make the awards.

# THEY'RE TRUE TO THEIR PLEDGE

Giving you a Milder BETTER TASTE

The steadily growing popularity of Chesterfields is a sure sign that they make good their pledge to give you the things that count most in a cigarette. Smokers know they can depend on Chesterfield's *Right Combination* of the world's best cigarette tobaccos to give them a Milder, BETTER TASTE. They're true to their pledge . . . *THEY SATISFY.*

### THEY'RE TRUE TO THEIR PLEDGE

AMERICA'S 180,000 MEN AND WOMEN OF MEDICINE are serving humanity faithfully wherever the need may be. They give their best with our troops and are doing double duty at home.
